In the next few weeks, we will be focusing on the Universal Laws of Life. These laws apply to every person inhabiting Planet Earth. If you haven’t already, we suggest you go back and read our previous Universal Laws posts to prepare yourself for the following...

**LAW OF SOUL EVOLUTION**

The goal of every single soul on Planet Earth is to evolve, whether we consciously realize it or not. We are Spiritual beings having a Human experience. We choose the people & opportunities in our lives because we desire to grow spiritually and achieve Soul Evolution. Fear of the unknown challenges us all the time; however, it must be realized that this is an opportunity to achieve Mastery. We must take responsibility, conquering all fears by facing them & realizing that they have absolutely no power over us. This is the KEY on the Path to Enlightenment where eventually ALL fear dissolves into Light.
Then we are able to fully embrace **Unconditional Love**, raising our vibrational frequency closer to a state of **Harmony**. As beings of Light, we already ARE beings of Love. Why do we resist that which is natural to us? Love is an innate State of Consciousness that is at the core of each of us. It is natural to love, to accept & to grow.

Even when we think we are not evolving, we are in reality making progress. We learn through the pain of our disharmonious thoughts, feelings, words, and actions. We are programmed to view this transcendent process as “mistakes” or “failures.” The fact is, there are no “mistakes” and every “failure” is only a step in our growth & transformation, which is an integral part of the **Ascension** process. Once we accept and love ourselves, we can accept others, thus experiencing pure Unconditional Love. Then, the vibrations we put out will be of the Highest frequency. Love & harmony will not be an elusive dream... it will be over-flowing within us. This is the **Law of Soul Evolution**.
